**Description** Originally built as the private home of an Italian duchess, Hotel Esencia is a place where the traditions of the past come together with a cosmopolitan sense of how to live well today. This aristocratic oasis sits where the Yucatán jungle dissolves into the pristine sands of Xpu-ha, one of the only remaining undeveloped shores of the Mayan Riviera.

Two new duplex Penthouse suites make their debut this season along with a new restaurant from a Michelin star winning culinary team. Watch this space for more details coming soon!

**What did we like** I would say we liked everything. It is a magical spot here on the Caribbean Sea.  
 Our plunge pool suite was situated on the upper floor giving us wonderful views to the lush tropical garden.  
 We enjoyed the pastries that were brought to our room in the morning. The spacious bedroom, all decorated in white with touches of wood and fresh flowers.  
 Excellent cuisine in all of the restaurants, fresh Mexican and internal dishes.  
 Depending on what your preferences are, there is the right suite for you.  
 Private Concierge  
 Privacy, plenty of space between suites/houses as well as on the beach and by the pool (separate Family Pool)  
 Caribbean Jungle Rain Water filled water bottles  
 All-Natural Hair and body products  
 Sound System with Hotels Playlist (or connect your own device)  
 Little gifts with the turn down service  
 Mosquito Spray  
 Animals and Birds in the garden  
 Pretty Sunshades on the beach

Clean beach

**What we didn't like** Up front payment is necessary prior to arrival.  
No house numbers, a bit difficult to find your lodging in the dark  
Plunge Pool has lots of chlor (is necessary, so I didn't use the plunge pool)  
AC blows straight to the bed
